

white & black striplines how to install

easy .. cut the foil + 2mm edge

white & black striplines how to install

clean with a cotton cloth and ethyl alcohol

remove part of the paper protection of the foil adhesive ,press with your finger to stick to the Saddlebags , gradually remove the rest of the paper protection and install the sticker

white & black striplines how to install

heat a little with a hot dryer before removing the transparent protective foil, smooth lightly with your finger ,
-beware hot- I recommend thin cotton gloves

remove the transparent protective film, remove the middle part of the label very carefully and slowly

white & black striplines how to install

reheat lightly with hot dryer and smooth the label on the suitcase,

-beware hot- I recommend thin cotton gloves

for Saddle bags of Black Leather soft surface, lightly press the foil with your finger several times so that the structure is visible

same procedure as for Black leather soft surface typ and Black shiny or when customer repainted our Raw -unpaint version of Saddlebags

you win, congratulations, your Oldtimers TEAM
